Henry's shoes

Henry was running late for school and couldn't find his shoes. He looked in his closet. He looked in the bathroom. He looked all through the house. *Where could they be?*

His sister Tess said, 'When I lose something, I try to remember the last place I had it. Where did you take your shoes off?'

'My room', Henry said. 'But they aren't there.'

Suddenly, Henry remembered Mum asking him to clean his room last night. He put some things under the bed. 'That's it!' he said.

Henry looked under his bed. What a mess! He found his shoes and many other things he thought were missing.

'Time to go', Tess said.

'Where did I put my coat?' Henry said.

Kyle's ride

**Kyle rides his BMX bike on this track.
The track has lots of jumps and turns.**

**Kyle's favourite part of the track is the tabletop jump.
When Kyle does the tabletop jump, he goes high into the air.**

**The last time Kyle tried the triple jump, he fell off his bike.
He was riding really fast. He was glad he was wearing his helmet.**

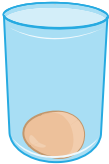

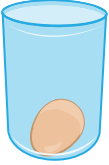

The egg test

Did you know that you can tell how old an egg is?

All you need is a tall glass of water.

Fill the glass with water. Put your egg in the glass. Now, use this guide to find out how old your egg is.

	What the egg does	Age of egg
	Sinks to the bottom of the glass and stays there	3-6 days old
	Sinks, but then floats at an angle	Just over 1 week old
	Sinks, and then stands on end	About 2 weeks old
	Floats on top of the water	Over 2 weeks old

Eggs last a long time. You can keep them for about four weeks in your fridge.
