

# NAPLAN Reading Exemplars

## Third Party Materials – information for use

NAPLAN exemplar items are available through the Student and School Summary Report (SSSR). Exemplars are indicative of the curriculum content and skill assessed and the relative difficulty of the original items they exemplify. Some exemplars contain Third Party Materials that are licensed for educational use in connection with NAPLAN. Restrictions on the use of Third Party Materials are outlined in Table 1 below. Items that contain Third Party Materials are listed by the Online National Assessment Platform item ID in Table 2.

If you wish to copy or communicate the Exemplar Items, you should ensure that you do so in accordance with:

- the Statutory Licence created by section 113P of the *Copyright Act 1968* (**Statutory Licence**);
- the restrictions of use below.

The Statutory Licence and restrictions of use should also be referred to when you wish to edit images, for example by placing a speech balloon over an image.

In specific circumstances, legal advice on the applicability of the Statutory Licence and the NAPLAN Test Administration Protocols should be sought.

Further, the National Copyright Unit (**NCU**) (which is the specialist copyright team responsible for copyright policy and administration for Australian schools and TAFE) can also assist in providing you with advice in relation to the Statutory Licence. The NCU is a specialised unit that provides copyright assistance and advice to all Australian government and non-government schools. If you require further information about how Administering Bodies or Schools can use NAPLAN tests in reliance on the Statutory Licence, we recommend you contact NCU at [smartcopying@det.nsw.edu.au](mailto:smartcopying@det.nsw.edu.au) or (02) 7814 3855. To confirm whether a particular school is covered by the Statutory Licence, we recommend you contact the [local copyright representative](#) listed on the Smartcopying website.
